

General guidance

Dubai Airshow identity guidelines:

General guidance for use of our logo

The Dubai Airshow logo and identity is owned by F&E Aerospace. It is important that this logo is protected and only used within guidelines provided in this document.

The guidelines have been drawn up to create a uniformity of style whilst providing flexibility to our partners. If you wish to use the logo outside of these guidelines please contact F&E Aerospace.

- > partners may only use the logos, colours and typefaces as specified in these guidelines
- > partners may not use parts of the Dubai Airshow visual identity in their communications
- > the logo can be used on a broad suite of applications: websites, pull-up banners, exhibition materials, brochures, letterheads, merchandise

Logo versions

Primary logo

Colour version (preferred version)

Mono version

Reversed out version

Our logo

When you use our logo, always use the original logo artwork files. Never attempt to recreate the logo yourself.

Our logo can be supplied in jpg, eps and other formats. These are available from F&E Aerospace on request.

Logo versions

Secondary logo

Square colour version

Mono version

Reversed out version

Our logo

Wherever possible our primary logo should be used. However, on occasions, the portrait nature of the primary logo may be restrictive. In such instances, the secondary horizontal version above should be applied to ensure clarity.

Exclusion zones and minimum sizes

15mm

30mm

Exclusion zone

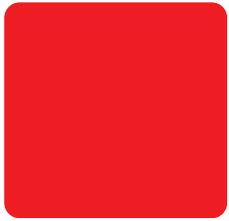

Always create an area of clear space around our logo to ensure that it doesn't lose its visual impact. There should be an exclusion zone equivalent to the height of the capital 'A' around the primary logo, and the width of the capital 'A' in the secondary logo, wherever they appear (see diagram above).

Minimum size

The primary logo must be no smaller than 15mm wide, and no smaller than 30mm wide for the secondary logo. The logo must be clearly legible wherever it is used.
